

**POSITION:** Shop/Site Technician (Smith Flow Control, Erlanger, KY, USA)

**OPPORTUNITY:**

To work within our USA office, as part of a team delivering world leading engineering solutions to the oil/gas and petrochemical markets. The company has a history of manufacturing innovative product solutions, which greatly enhance safety and efficiency.

**PRODUCTS:**

Mechanical Key Interlocks and Valve Management Systems.

**LOCATION:**

From an office in Erlanger, KY, the ideal candidate will live within close proximity/easy commute to the office.

**EXPERIENCE:**

Professional working experience is highly desirable, together with a level of technical expertise/training. Mechanical aptitude is required; an ability to read and interpret CAD Drawings, SolidWorks Drawings and Logic Diagrams. This role requires strong communication skills, as interaction with colleagues and customers is vital. Competent PC skills is essential, to include Microsoft Office and a willingness to learn other systems and processes. Experience of valves is advantageous but not a necessity.

**DUTIES AND RESPONSIBILITIES:**

Erlanger, Ky. Shop Area

- Production and assembly of products, e.g. FlexiDrive
- Shipping/Packing as per production schedules and customer instructions.
- Quality Control; reviewing the quality of all factors involved in production.
- Valve Top Works Measurement, Inventory, Product Repair as required.

Site Services

- Measuring and surveying of valves and other equipment.
- Installation of Interlocks, FlexiDrive and EasiDrive Systems.
- Product Commissioning.
- Training plant personnel and contractors etc, on correct operation, care and maintenance.

Erlanger, Ky. Office Area

- Duties and responsibilities to be determined based on capabilities and business need.

**ELIGIBILITY:**

This vacancy is based from our USA office and we will not be providing a relocation package.

**SALARY:**

\$33000-\$37000 per year, 2 weeks' vacation plus 11 paid holidays per year (8 fixed and 3 floating). Full benefits to include medical, dental, vision and 401K. Bonus opportunity based on company achievement of plan. Shop and field training program supported.
